## The beach house

By Lily

When we went to the beach in the summer,  
We collected shells, swam and played.  
But when it got hotter at lunchtime,  
We wanted to sit in the shade.

Dad said, "Let's make a beach house."  
He drew some plans in the sand.  
We didn't have boards or a tool box,  
So we had to work with our hands.

We looked around the beach and the park.  
We saw some tall trees by the shore.  
We collected big leaves and some branches,  
And got a blanket to put on the floor.

We tied the branches together  
With seaweed we found on the sand.  
The big leaves made walls and a carpet.  
Our shells made the beach house look grand!

Have you ever wanted a beach house?  
Just look around and use what you see.  
Our beach house looked crooked and funny,  
But we had a great time at the sea!

## The school carnival

The day of the school carnival arrived. Barnie was nervous and excited. This year he was in charge of the parade. He had a piece of paper so he knew what to do. Everything was ready. All the pupils had their masks on and were waiting to begin. He picked up the microphone.

“Hello and welcome to the parade!” he said. He waited to hear the crowd clap and cheer, but they were talking and laughing and weren’t looking at him or listening to him.

“Ladies and gentlemen, this is the school parade!” he said. Nothing happened. His voice wasn’t coming through the speakers. The music wasn’t playing. Something was wrong!

Barnie hurried over to the speaker and looked at it. He saw the plug on the floor. “I didn’t plug in the speaker!” he thought. He quickly plugged it in and ran back to the microphone.

“Ladies and gentlemen, welcome to the parade,” he said. The crowd heard him and stopped talking. They started to clap and cheer.

The music for the parade started playing. “Here are the pupils of Class 7B!” said Barnie, and his classmates started the parade. The costumes were wonderful and the sparkly masks looked great. Everyone in the crowd was smiling and laughing. Barnie smiled and waved to his mum and dad in the audience. They cheered and waved back. Barnie felt relaxed and happy. The parade was going to be fantastic!

### Reading

1 Read the web page. Write the paragraph titles.

Wind energy    Water energy    ~~Solar energy~~

## New kinds of energy

People are trying not to use fossil fuels because they use up the Earth's resources and they are bad for the environment. Scientists want to find new kinds of energy that don't damage the planet. We call this alternative energy, but are these ideas really new?

1 Solar energy

Look at this greenhouse. The sun's energy goes through the glass and stays inside. Inside it's warm. This means that plants can grow in cold countries.

2 \_\_\_\_\_

Look at this sailing boat. It doesn't have an engine and it is moving because of the wind. Sailing used to be the fastest way to travel, but only when the wind was strong.

3 \_\_\_\_\_

This is a water mill. The water makes the wheel turn and the wheel turns the mill. The mill makes flour that we use for bread and other food.

These ideas are not new, and people have been using energy in these ways for hundreds of years. But the way we can use alternative energy has changed. Now we can take natural energy from the sun, wind and water, and we can make electricity from it. Electricity is a type of energy we can use for lots of jobs. Now we can see that scientists are using very old ideas in our modern technology.

2 Read again and match.

## As Good as New – competition results

Thanks to all of you who sent in emails and photos to our competition. Your ideas are fantastic! Here are the winners of this year's competition.

1 Fashion parade

Look at these amazing hats! Frank and Ollie made these with reused wrapping paper. First they made circles out of card. Then they stuck on the wrapping paper and the other decorations. They look really great!

2 \_\_\_\_\_

These flowers and insects used to be egg boxes. Natalie cut up the boxes, painted them and decorated them with ribbons and pretty paper. She worked really hard, and they look amazing!

3 \_\_\_\_\_

George's desk used to be a mess. He made this pen holder with old juice cartons. He glued them together and stuck pictures from magazines on them. Now his desk is very tidy, and he is recycling juice cartons and magazines!

These are made of old magazines and greetings cards! Fiona rolled the paper and glued it to make small tubes. She put them on string to make bracelets! Now she can wear them when she goes to see her friends.

## Adopt an animal at London Zoo

The people who work for the Zoological Society of London keep and look after endangered animals. They do research and study animals in the wild. They try to save species which are in danger of becoming extinct. And we can help!

Of course, we can't all work at the zoo, but anyone can adopt one of the London Zoo's many animals, and their donation will help animals all over the world.

There are so many animals to choose from! Here are some ideas ...

- ★ How about protecting the tigers? Their jungle habitat is in danger.
- ★ Do you like gorillas? They eat 12–18 kilos of food every day!
- ★ Do you love lizards? The Komodo Dragon is the biggest lizard of all.
- ★ How about a rhino? There are five different species.

There are lots of other kinds of animals, too – some live in the water, some live in forests or deserts and others spend most of their lives in the air!

Of course, you can't take the animal home with you. The animals are happy at the zoo, and the zoo keepers look after them very well. But you get a magazine with lots of photos and news every month, and emails from the zoo with news about your animal. The best thing is, you can go to the zoo to visit your animal as often as you want – for free!

The Royal National Lifeboat Institution (RNLI) is a charity that looks after people in the sea around the UK and Ireland. The RNLI has more than 300 lifeboats and works on more than 100 beaches. The lifeboats can travel very fast and have lots of first aid equipment on them. Last year they rescued over 10,000 people who were in danger at sea.

2 \_\_\_\_\_

RNLI lifeguards work on Britain's beaches. They watch the beaches and make sure everyone can enjoy them safely. Sometimes they use special cars to travel faster. If a boat gets into a dangerous situation at sea, the RNLI sends a lifeboat out to help them. RNLI crew are all volunteers. 1 Look at the pictures and tick (✓) the things that are good for you. Read and check.

## Be fit! Be clever! Be healthy!

We all know that we need energy for sport. Did you know it's important for school too? You need to have a healthy diet if you want to do well at school. It's important to eat the right food, get enough sleep and drink plenty of water, as well as studying hard.

Avoid junk food and sweet or salty snacks. Your body uses the energy in food in different ways. Food with lots of sugar gives you lots of energy very fast. But when the energy is gone, you can suddenly feel tired. It's better to eat food that gives you energy more slowly, so you can work and play for longer. Fruit, potatoes, bread and cereals are good sources of slow energy, so try to eat lots of these.

Salty food makes you thirsty. If you don't drink enough water, being thirsty can make you feel tired or ill. Drink lots of water to keep your body and brain fresh. Try not to drink too many drinks that are full of sugar.

A healthy diet with lots of fruit and vegetables also gives you lots of vitamins. You need vitamins to keep your body and brain working properly. Raw vegetables and fresh fruit are great brain food, and they taste great, too! Why not put bits of fruit in a salad? It will taste great and look very colourful!

2 Read again and write *True* or *False*.

- 1 You don't need energy to learn. False
- 2 Sleeping is important for health. \_\_\_\_\_

### Reading

1 Read and look at the process text. What is your pulse rate? Tick (✓) one.

- a How much oxygen your heart needs.
- b How many times your heart beats in a minute.
- c How much oxygen there is in your blood.

## Pulse rate

Your heart pumps blood around your body. The blood carries oxygen, which helps your body work properly. You can count your heartbeat to find out how fast your heart is working. This is called your pulse rate.

You can feel your pulse in your wrist and in your neck. The easiest place to count your pulse rate is in your wrist.

- 1 Hold out your left hand, with your thumb on the left.
- 2 Put two fingers from your right hand on your left thumb and slide them back onto your wrist.
- 3 Press lightly with your fingers. You can feel a steady beat. That's your heartbeat! If you don't feel a beat, move your fingers around until you find it.
- 4 When you have found a steady beat, count how many beats there are in 30 seconds. (Use your watch to time yourself.)
- 5 Multiply the number of beats by two. This is the number of heart beats in one minute.

A normal pulse rate when you are relaxed is about 90 beats in one minute. Every child is different, so pulse rates can be from 60 beats in one minute to 120 beats in one minute. If you have just done some exercise, your pulse rate will be faster. This is because your body is using more oxygen, so the heart needs to pump blood more quickly. After a while, your pulse rate will slow down and become normal again.

2 Read again and circle.

- 1 Your heart / lungs / head pumps blood around your body.
- 2 You can count your *beat* / heart / *heartbeat*.
- 3 You can feel your pulse in your *wrist* / knees / heart.
- 4 Count how many beats there are in *one minute* / one second / 30 seconds.
- 5 You need to multiply the number of beats by *thirty* / two / one.
- 6 When you exercise, your heart works *slower* / faster / the same.

## THE ROMANS IN BRITAIN

1 The Romans invaded Britain nearly 2,000 years ago. When they arrived, they built big towns and lots of good roads. Archaeologists have found Roman ruins in many British towns. The Romans also gave names to many of the towns they built. London was called *Londinium*, but in Roman times it wasn't the most important city in England.

d

2 Roman towns were bigger and more modern than the towns that were there before. Rich Romans lived in big houses or beautiful palaces. They decorated the courtyards with pictures of animals and people. Most of these are ruins now. They thought Britain was very cold, so they invented central heating to keep their houses warm.

3 The Romans were great engineers and they brought many new ideas to Britain. They built big bridges to cross rivers. They also built aqueducts to supply their towns with fresh water. Roman towns needed a lot of water to supply their bath houses, which were very important to them. Roman men and women spent several hours there with their friends every day.

4 The most famous Roman ruins in Britain are at Hadrian's Wall. It's in the north of England and goes the whole way across the country. The Romans built it as a border between England and Scotland. It was a strong wall, with lots of fortresses to protect the Roman towns in England. You can still visit it today, but it isn't the border between the two countries anymore.

2 Read again and answer the questions.

- 1 When did the Romans arrive in Britain? Nearly 2,000 years ago.
- 2 What was the Roman name for London? \_\_\_\_\_
- 3 Where did rich Romans live? \_\_\_\_\_
- 4 What did the Romans invent to make their houses comfortable? \_\_\_\_\_

A trip to Hadrian's Wall

My class went on a trip to Hadrian's Wall. It's in the north of England. It isn't the <sup>1</sup> border anymore and there aren't any soldiers, because the people in Scotland don't want to <sup>2</sup> \_\_\_\_\_ England now. You can see the old <sup>3</sup> \_\_\_\_\_, where the Roman soldiers stayed. You can see how they lived, too. - a She wrote a book.
- b She made a film of her favourite book.
- c She acted the main part in a film.

## Hollywood at home by Amy Turner

My favourite book is *Charlotte Sometimes* by Penelope Farmer. I decided to make it into a film! I was the director. My sister loves acting, so she played the main character, and we borrowed Dad's camera to film it. We even did some special effects on the computer!

The story is about a teenager called Charlotte. At the beginning of the story Charlotte goes to a new boarding school in London. On the first night she goes to bed in her own time, but she wakes up in the past, in 1918. She is at the same school, but she has swapped places with a girl from the past called Clare. Charlotte has to learn how to be Clare. She has to try to live in Clare's time.

*Charlotte Sometimes* is a great story. It isn't really a comedy, but it has some funny parts. It's mysterious and exciting. Charlotte has to face a lot of challenges to get back to her own time, and she becomes more confident and brave. My sister's performance was wonderful! Sometimes I forgot she was my sister when she was acting!

I really enjoyed being a director for the day. I learnt lots of new things and had a lot of fun, too. Maybe I will be a film director when I'm older. I can't wait to show our film to Mum and Dad!

They have done lots of interesting things this year.

First, they wrote a script and performed in their own film. The costumes were amazing!

Then they helped to clean up the wildlife park after it was filled with litter. They did a great job. The river is dangerous now.

They learnt first aid and helped a famous basketball player. He's much better now and playing well.

Some celebrities earn a lot of money and are very rich. Some people think they earn more than they deserve because their jobs are not difficult or dangerous. But many celebrities choose to give their money away to help people who need it, and often they don't tell anyone about it. Here are some examples.

One American film actress wants to help improve people's lives. She does more than just give away money. After a terrible storm in New Orleans, USA, she worked as a volunteer and served food to people who lost their homes in the floods. She has also visited India to help a charity which is building schools and hospitals so that children can be healthy and get an education.

A famous British footballer does a lot of work with organisations that help children all over the world. He has started his own charity with his wife. They raise money to buy wheelchairs for children who can't walk. He also helps a charity that tries to stop people getting a disease called malaria in Africa.

So celebrities earn a lot of money, but many of them give a lot away, too. Because they give their time and money, a lot of people over the world can have better lives. Are they heroes? Tell us what you think ...
